CPD Committee 2022 Report

Over the past year, we have seen a drop in online CPD events as numbers have declined in attendance. There has been an element of “zoom fatigue”, but not enough certainty to host physical events until recently.

We have been able to arrange a Contracts update CPD with Len Bunton, who wasn't able to give us a talk last year, and otherwise we have been carrying out occasional CPDs on retrofit and sustainable construction materials.

There are some talks regarding CDM / Health & Safety, as well as PI Insurance on the horizon, but due to COP26 and our annual awards, timing has been limited to organise additional CPDs.

We have an agreement with the City Council to arrange both a Planning update CPD, as well as another Building Standards update, as there are due to be notable changes in the coming year, especially regarding embodied carbon & energy efficiency.

I am very keen to get some more input into organizing CPDs, which is already being taken on for individual CPDs by members of the council. All help with this is greatly appreciated.

If you would like to get involved with the CPD committee, please do not hesitate to get in touch.
